BOTANICAL OIL BLEND™

"The herbal supplement that contains a powerful blend of all-natural, essential oils."

- A dietary supplement -

A proprietary, encapsulated blend of:

- P73™ Oregano Oil (Origanum vulgare)
- Orange Oil (Citrus sinensis)
- Peppermint Oil (Menta piperita)
- Lemon Myrtle Oil (Backhousia citriodora)
- Lavender Oil (Lavandula angustifolia)
- Virgin Coconut Oil (Cocos nucifera)

Other ingredients: Lecithin (non-GMO), Candelilla wax (plant-based), Kosher Gelatin Capsules

NO Yeast, Corn, Wheat, Sugar, Starch, Dairy, Fish, Preservatives, Artificial colors or flavors added.

Scientifically documented properties of the essential oils found in Botanical Oil Blend™

A

D

B

E

C

F

A. Oregano oil (*Origanum vulgare*)

- Anti-Candida properties ¹
- Anti-fungal properties ²
- Anti-mycotoxin properties ^{3,4,5}
- Anti-bacterial properties ^{6,7}

B. Orange Oil (*Citrus sinensis*)

- Chemo-preventive against certain cancers ⁸
- Anti-fungal properties ^{9,10}
- Contains strong antioxidant components ¹¹

C. Lavender Oil (*Lavandula angustifolia*)

- A source of perillyl alcohol, which is under investigation for its cancer-preventive and therapeutic effects ¹²
- Anti-fungal properties ¹³

D. Lemon myrtle oil (*Backhousia citriodora*)

- Anti-microbial properties ¹⁴
- Effective against fungi, yeast, and bacteria ^{10,15,16,17}
- Anti-mycotoxin properties ¹⁸

E. Peppermint Oil (*Mentha piperita*)

- A source of perillyl alcohol, which can cause apoptosis (cell death) of tumor cells ^{19,20}
- Helpful in digestive disorders ²¹
- Effective against fungi and bacteria ^{7,10,17}

F. Coconut Oil (*Cocos nucifera*)

- Cholesterol-lowering effects ²²
- Anti-fungal properties ²³

Fungus infections are relatively, if not actually, more frequent in occurrence since the introduction of penicillin and other potent antibiotics for the control of the acute bacterial diseases.

-Conant, et. al. Manual of Clinical Mycology, 2nd ed. WB Saunders Co. Philadelphia, PA.

The quality of your health is determined largely by the status of your immune system, along with your frequency of exposure to toxins and microbes that burden the immune system.

Exposure to mycotoxins in food, fungi in the environment, and medications that alter the normal balance of our immune system are added insults to stress and an unhealthy diet.

Formulated by Dr. David Holland[†], MD, Botanical Oil Blend™ is a powerful blend of food and plant-based essential oils that are effective against harmful microbes and chemicals that can take up residence in and poison our body.

Part of a program of exercise, proper diet, and supplementation, Botanical Oil Blend™ is ideal for times when your immune system needs extra assistance.*

Directions for use: Take 1 capsule once or twice a day with food and/or plenty of water, or take as directed by your health care provider.

† David Holland, MD, has studied nutrition, fungi and mycotoxins for the past ten years. Doug Kaufmann, national television host and nutritional scientist and Dr. Holland continue in this area of study, reaching out to share with the public information on the link between fungi and nutrition via books, television, radio, and seminars. Please visit www.knowthecause.com for more information. Also tune into *Know The Cause!* on the DISH Network, Channel 223 (the Healthy Living Channel) weekdays from 9-10 a.m. Central Standard.
